VIBE 2026 College Fest Website

HTML and CSS Mini Project Report

1. Aim

To design and develop a responsive **VIBE 2026 College Fest Website** using HTML and CSS to display technical events, cultural competitions, workshops, event schedules, coordinators, festival rules, and a student registration form.

2. Procedure

1. Create a basic HTML document using the DOCTYPE, html, head, and body elements.

2. Add a header titled VIBE 2026 and a navigation bar linking to Home, Events, Schedule, Coordinators, Rules, and Register.

3. Create a welcome banner with a short festival description and a Register Now link.

4. Design separate cards for technical events, cultural events, and workshops using HTML and CSS.

5. Create an event schedule table showing the day, time, event name, and venue.

6. Add a coordinators table with event categories, coordinator names, and contact numbers.

7. Display festival rules using an ordered list.

8. Create a student registration form with fields for full name, college name, email address, and event selection.

9. Style the website using background colors, gradients, spacing, borders, rounded corners, and box shadows.

10. Use a CSS media query to improve the layout on mobile devices.

11. Save the file with the .html extension and open it in a web browser to view the website.

3. Output

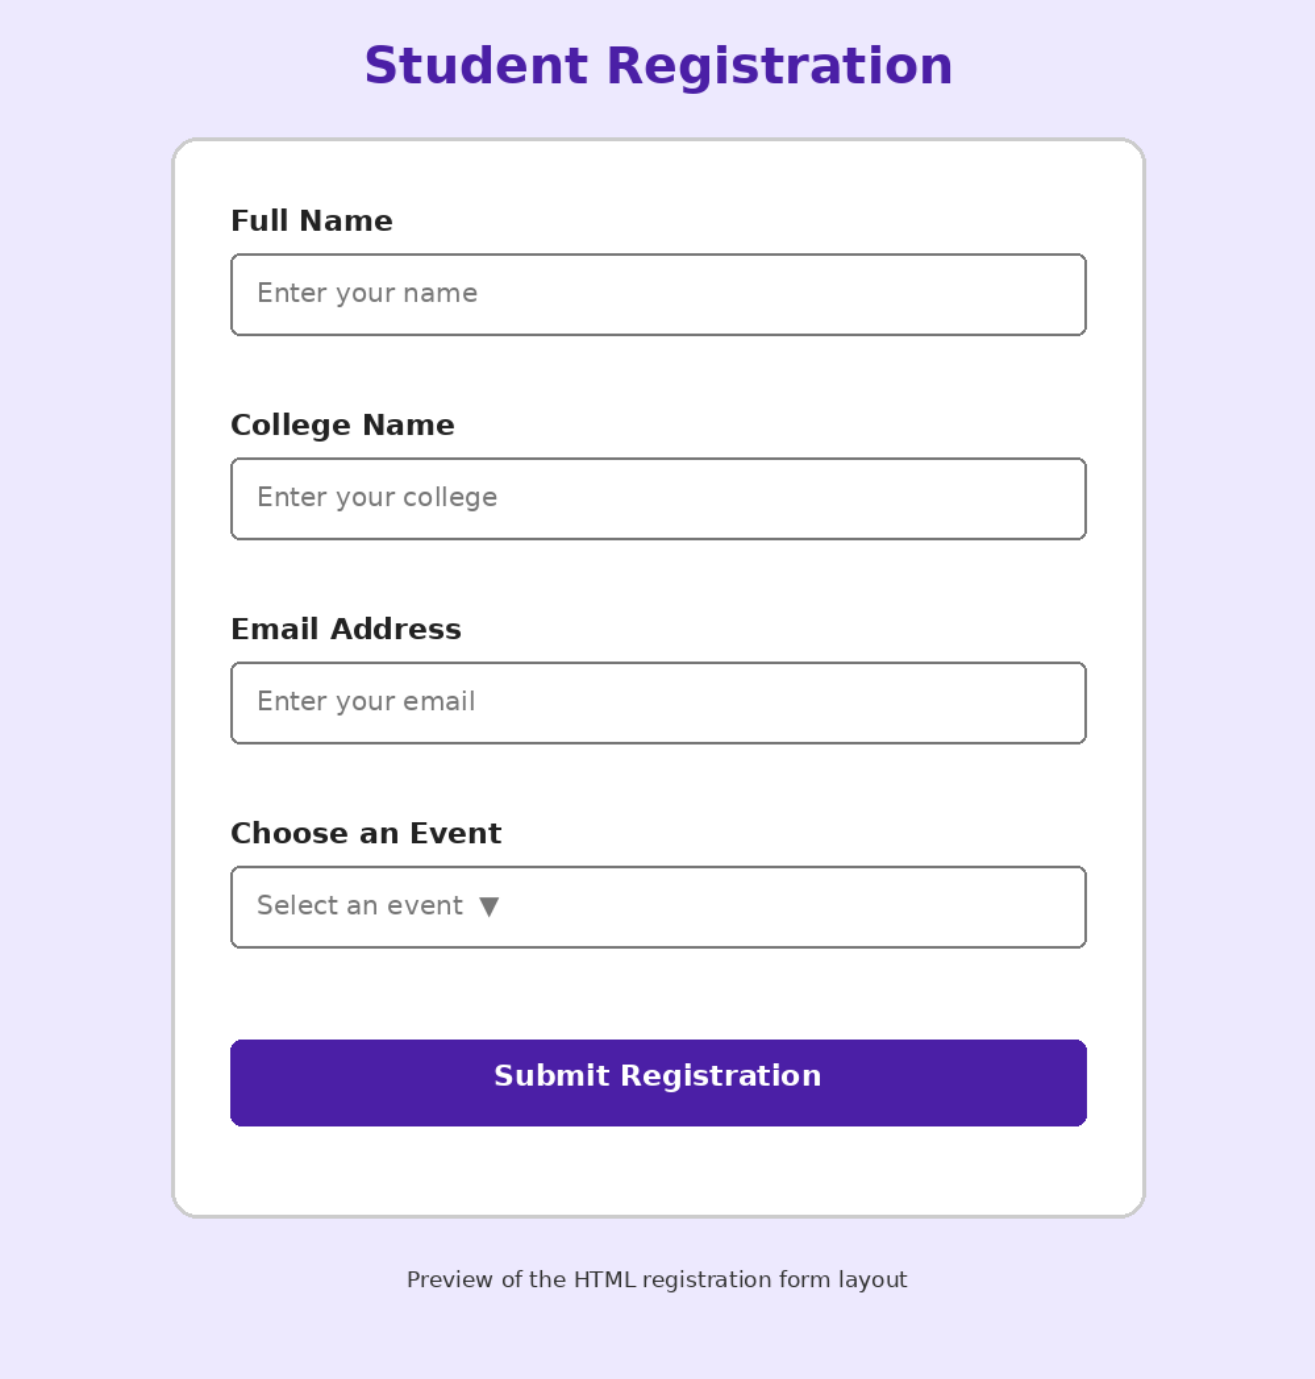

The website output includes a colorful festival header, navigation links, event cards, clearly visible tables, festival rules, and a student registration form. The images below are visual previews based on the supplied HTML and CSS.

Student Registration Form Preview

Student Registration Form Preview — output illustration for the report.

Result

The VIBE 2026 College Fest Website was designed using HTML and CSS. It presents festival information in an organized, user-friendly layout and includes a student registration form.

Sweet Crumbs Bakery Website

HTML and CSS Website Report

1. Aim

To design and develop a responsive **Sweet Crumbs Bakery Website** using HTML and CSS to display cakes, pastries, cookies, custom cake designs, seasonal offers, an online order form, and bakery contact information.

2. Procedure

1. Create the basic HTML structure using the DOCTYPE, html, head, and body elements.

2. Add a header displaying “Sweet Crumbs Bakery” and the tagline “Freshly Baked, Lovingly Made!”

3. Create navigation links for Home, Cakes, Pastries, Cookies, Custom Cakes, and Contact.

4. Design a welcome banner with a background image, heading, description, and “Explore Our Bakery” button.

5. Create product galleries for cakes, pastries, and cookies, showing images, names, descriptions, and prices.

6. Add a seasonal offer section advertising 15% off selected cakes.

7. Display custom cake options for birthdays, weddings, and themed celebrations with starting prices.

8. Create an online order form with customer name, phone number, product, quantity, delivery address, delivery date, and special instructions.

9. Add the bakery address, phone number, email address, and opening hours in the contact section.

10. Use CSS colors, spacing, borders, rounded corners, shadows, and hover effects to style the webpage.

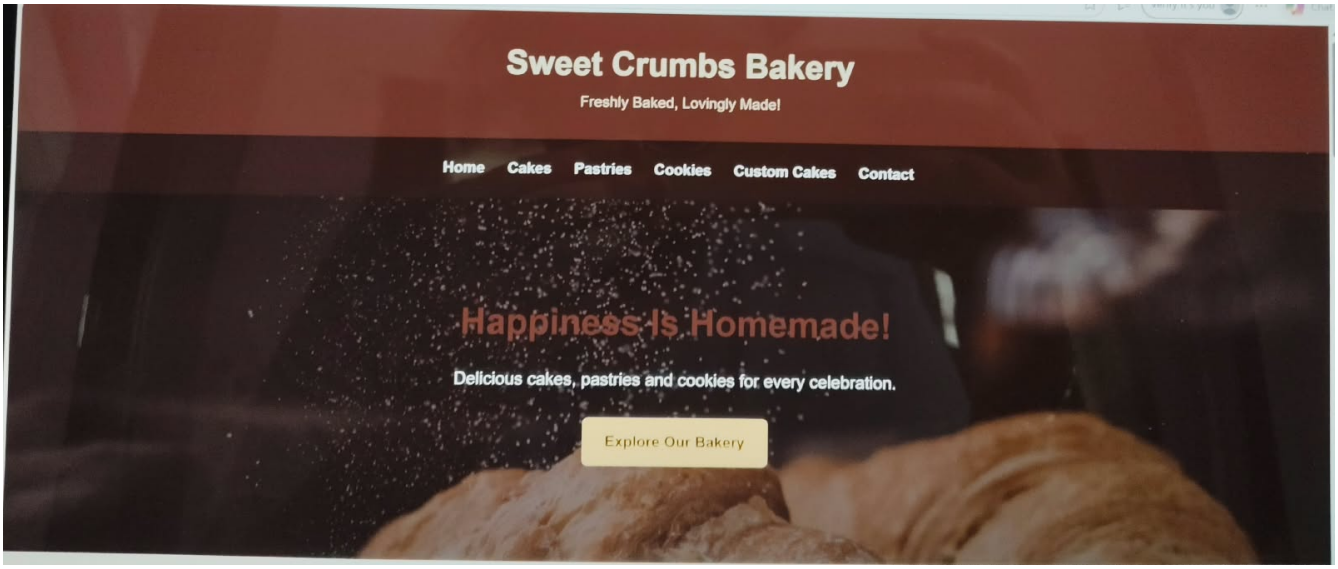

11. Use CSS media queries to adjust the layout for smaller screens.

12. Save the file with the .html extension and open it in a web browser to view the output.

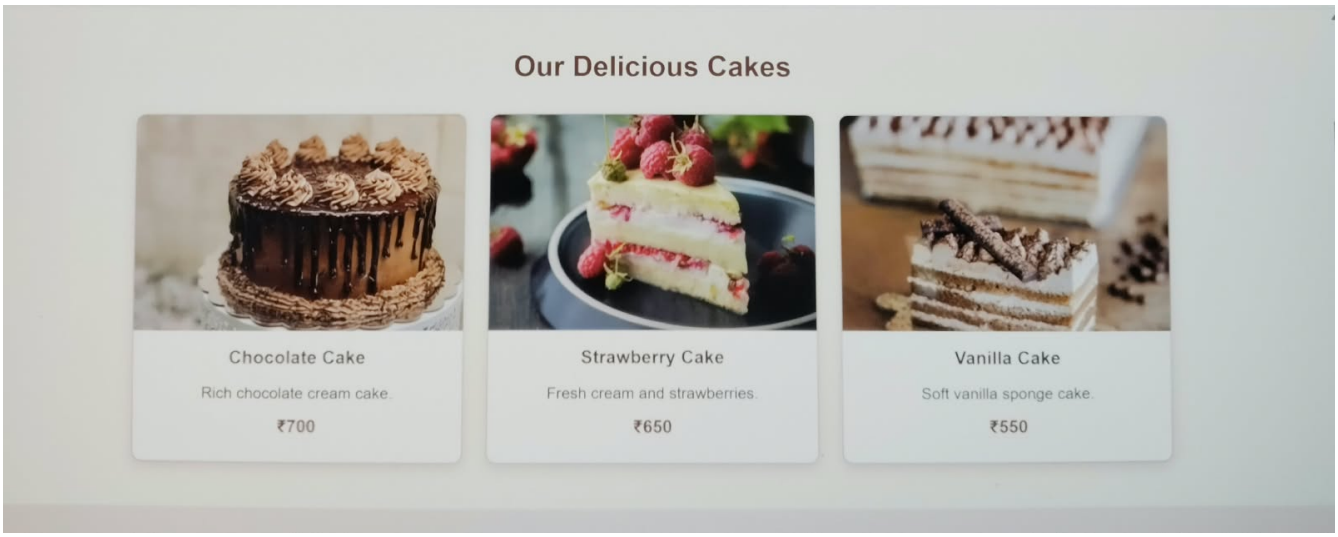

3. Output

The following are the actual screenshots provided from the webpage. They show the homepage, cake gallery, pastry gallery, cookie gallery, seasonal offer and custom cake designs, online order form, and bakery contact information.

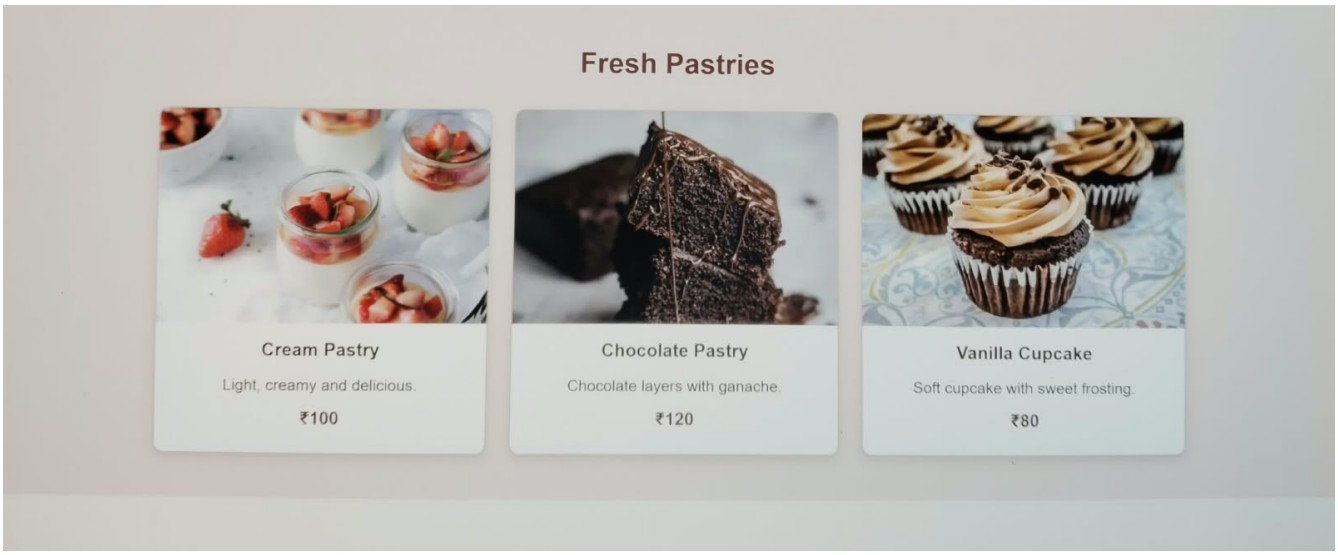

Output Image 1: Homepage banner and navigation menu.

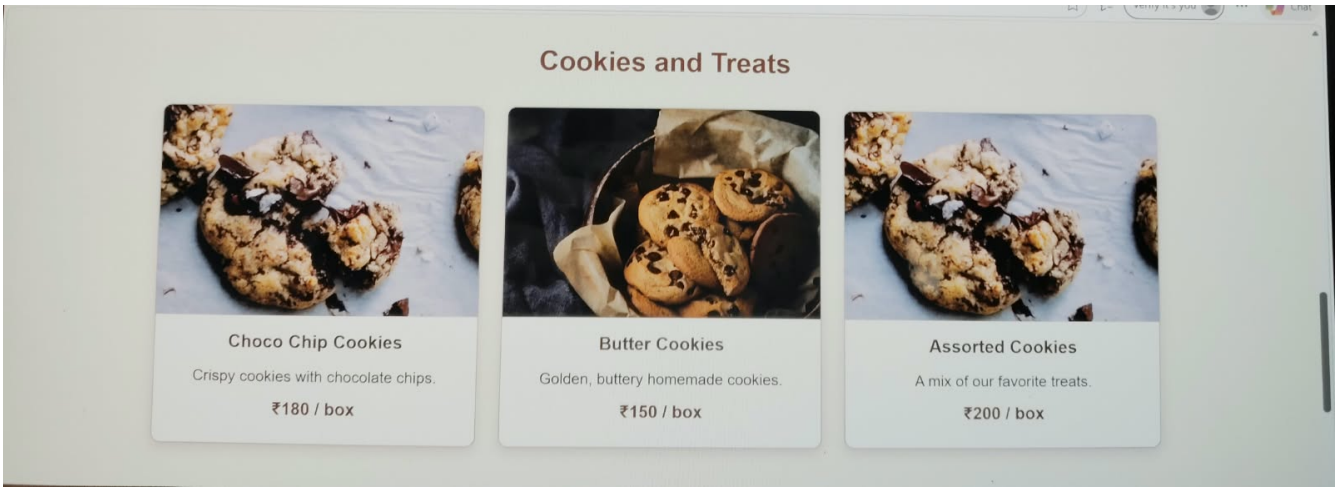

Output Image 2: Our Delicious Cakes section with product names and prices.

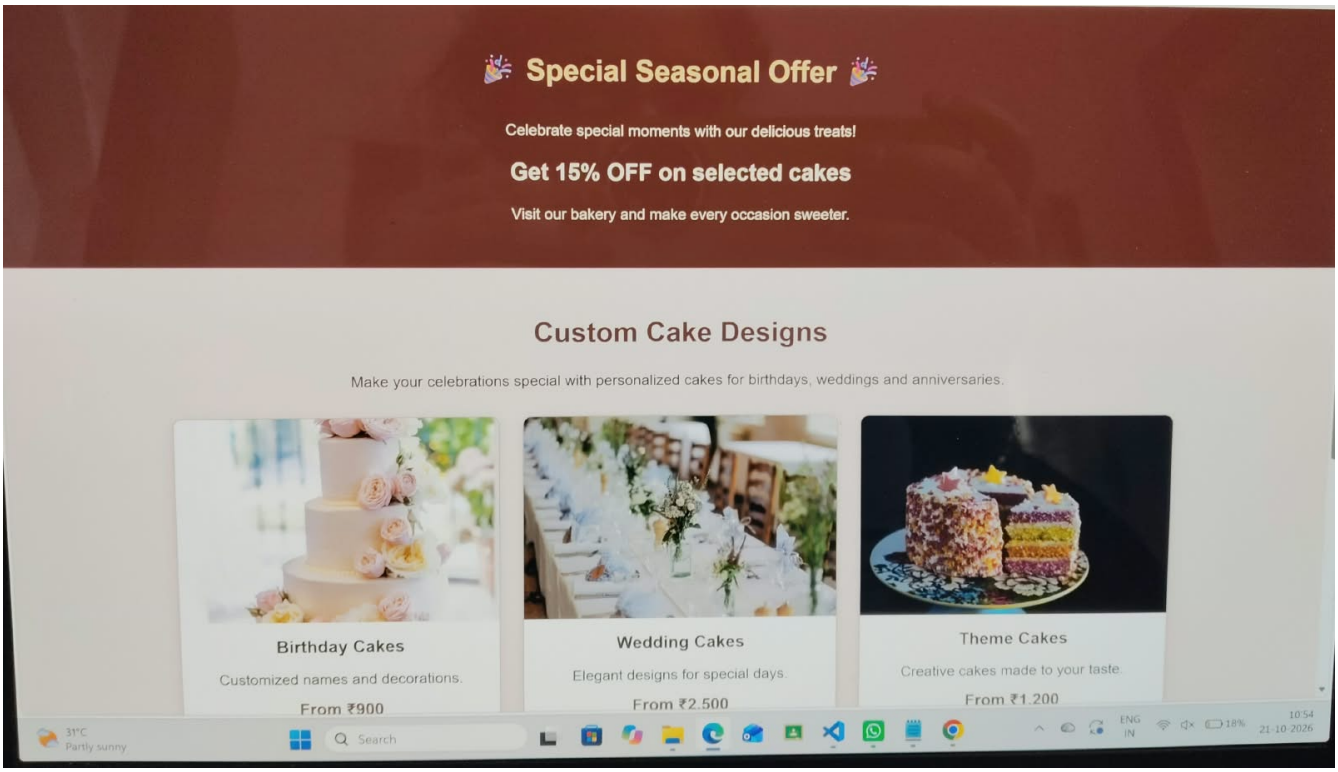

Output Image 3: Fresh Pastries section.

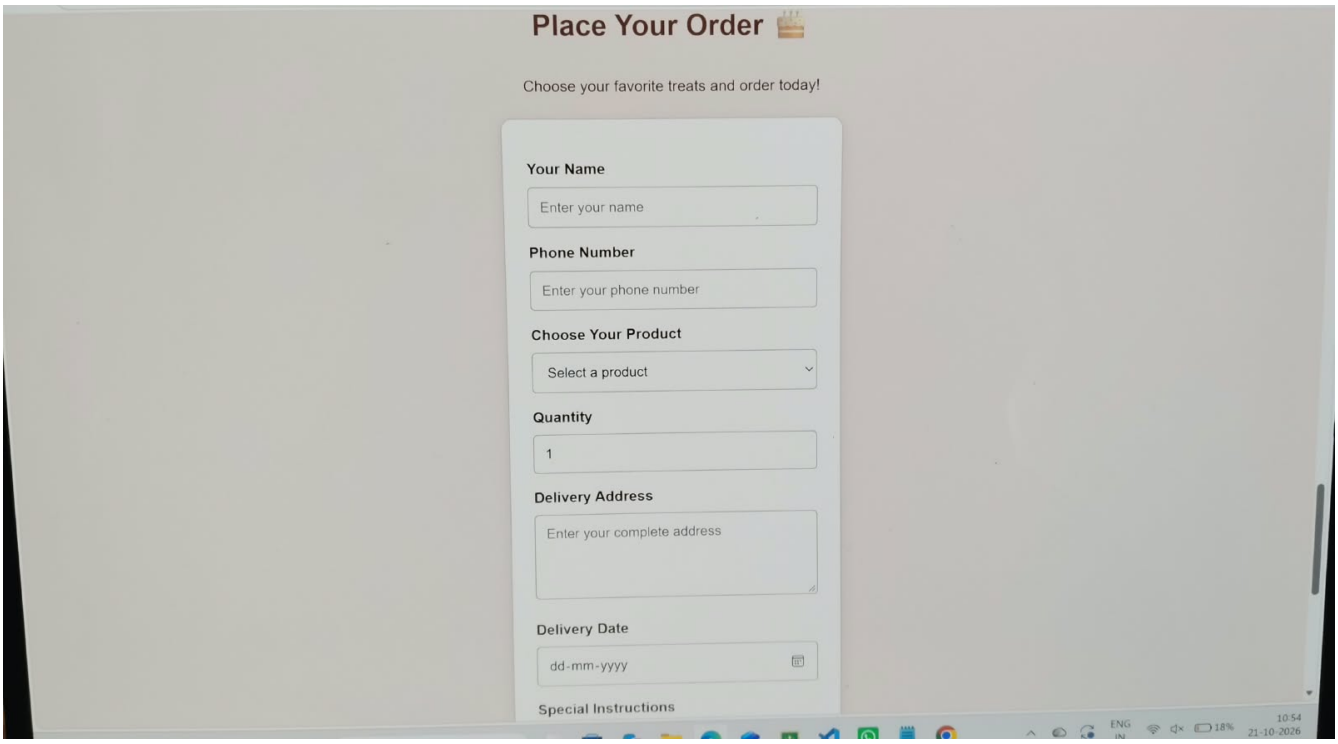

Output Image 4: Cookies and Treats section.

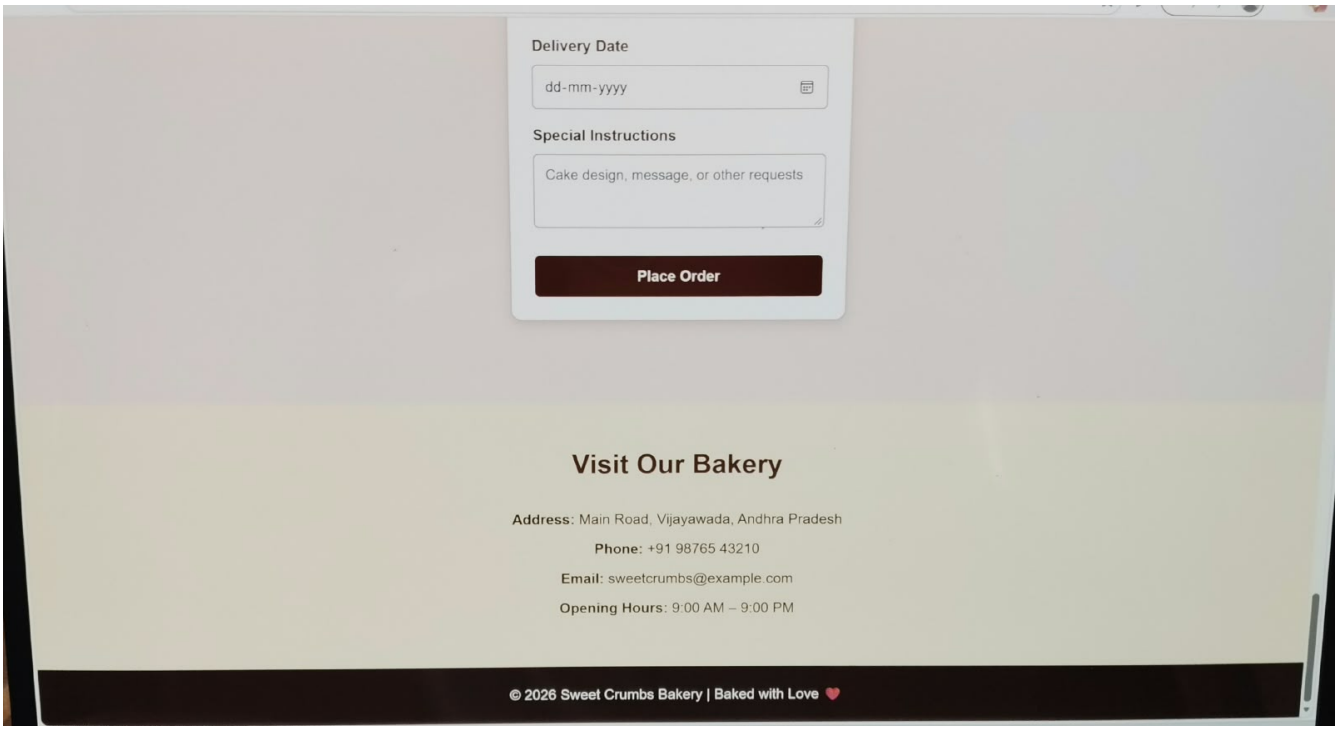

Output Image 5: Seasonal offer and Custom Cake Designs section.

Output Image 6: Online order form fields.

Output Image 7: Order form continuation, contact details, and footer.

4. Result

The Sweet Crumbs Bakery Website was designed using HTML and CSS. It presents bakery products and prices, special offers, custom cake options, an online order form, and contact details in a clear layout. The supplied screenshots document the website output.

CarePlus Hospital Website Report

AIM

To design and develop a hospital website using HTML and CSS that presents hospital information, doctor profiles, consultation timings, available appointment slots, a patient registration form, and contact details in a clear and user-friendly layout.

PROCEDURE

1. Create the basic HTML document structure with the head and body sections.

2. Add the CarePlus Hospital title, tagline, and navigation links for Home, Doctors, Timings, Appointments, Patient Registration, and Contact.

3. Design a welcome section with a healthcare message and a Book an Appointment button.

4. Create doctor profile cards displaying each doctor’s name, specialization, experience, consultation fee, and appointment button.

5. Add a consultation timings table showing doctor names, specializations, working days, and timings.

6. Create an available appointment slots table showing the doctor, date, time, and availability status.

7. Build a patient registration and appointment form with fields for name, age, gender, phone number, email, doctor, appointment date, preferred time, and reason for visit.

8. Add a contact section containing the hospital address, phone number, email address, and hospital hours.

9. Use CSS to style the navigation bar, colors, cards, tables, buttons, form fields, and page sections.

10. Open the webpage in a browser and review the layout and navigation.

OUTPUT

The following are the actual screenshots supplied for the CarePlus Hospital website.

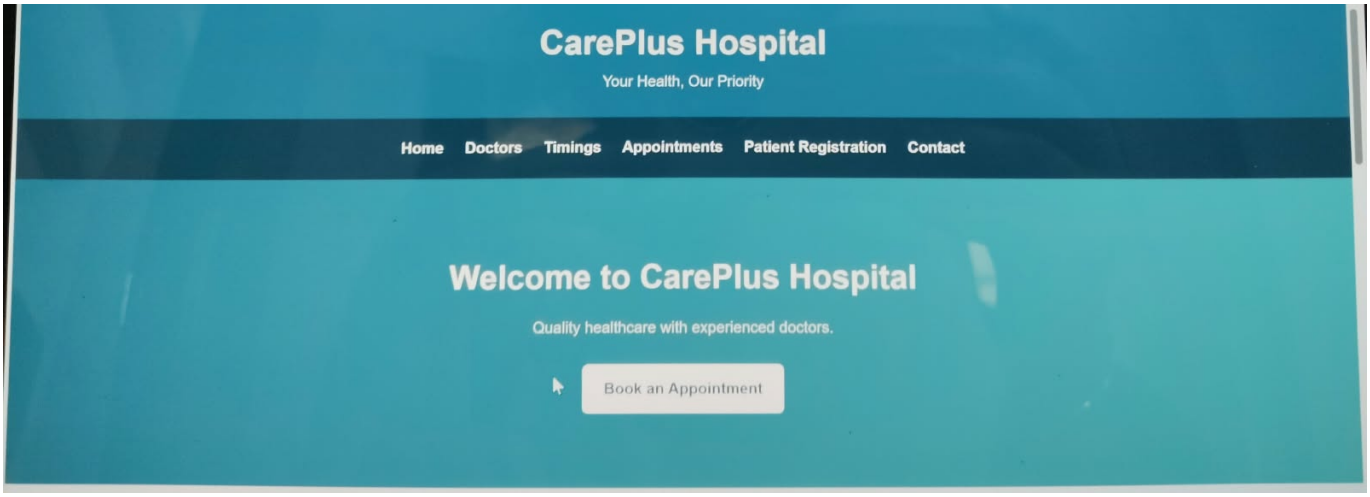

Figure 1: CarePlus Hospital homepage and navigation

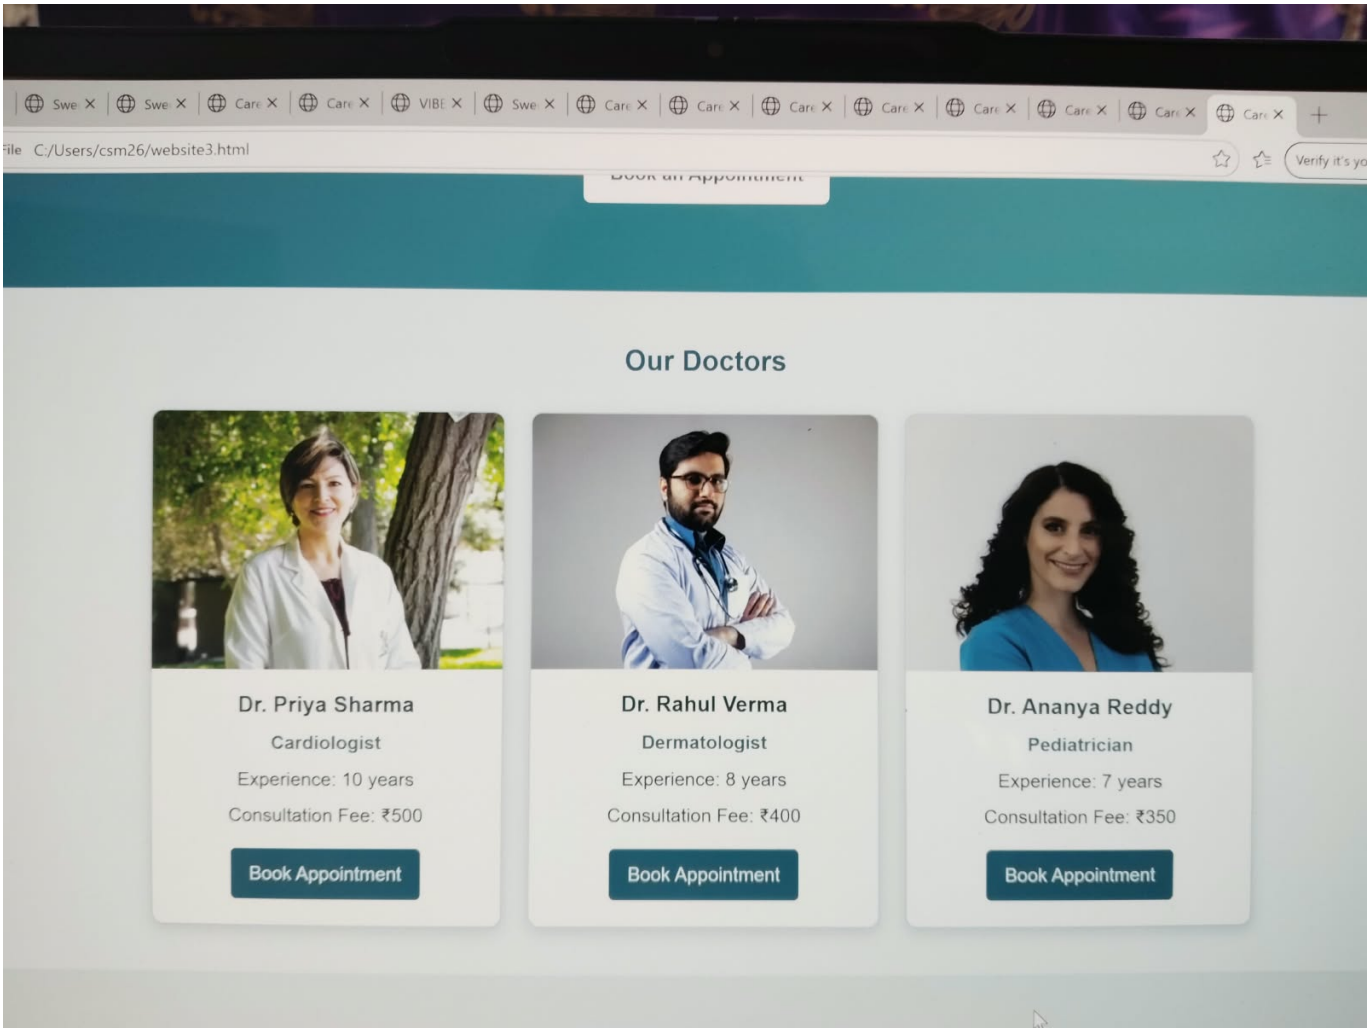

Figure 2: Doctor profiles and consultation details

Consultation Timings

Doctor	Specialization	Days	Timings
Dr. Priya Sharma	Cardiology	Mon - Fri	9 AM - 12 PM
Dr. Rahul Verma	Dermatology	Mon - Sat	2 PM - 5 PM
Dr. Ananya Reddy	Pediatrics	Tue - Sun	10 AM - 1 PM

Available Appointment Slots

Doctor	Date	Available Slot	Status
Dr. Priya Sharma	25 Oct 2026	10:00 AM	Available
Dr. Priya Sharma	25 Oct 2026	11:00 AM	Available
Dr. Rahul Verma	25 Oct 2026	3:00 PM	Available
Dr. Ananya Reddy	26 Oct 2026	11:00 AM	Available

Note: Appointment slots are sample details for this website project.

Figure 3: Consultation timings and available appointment slots

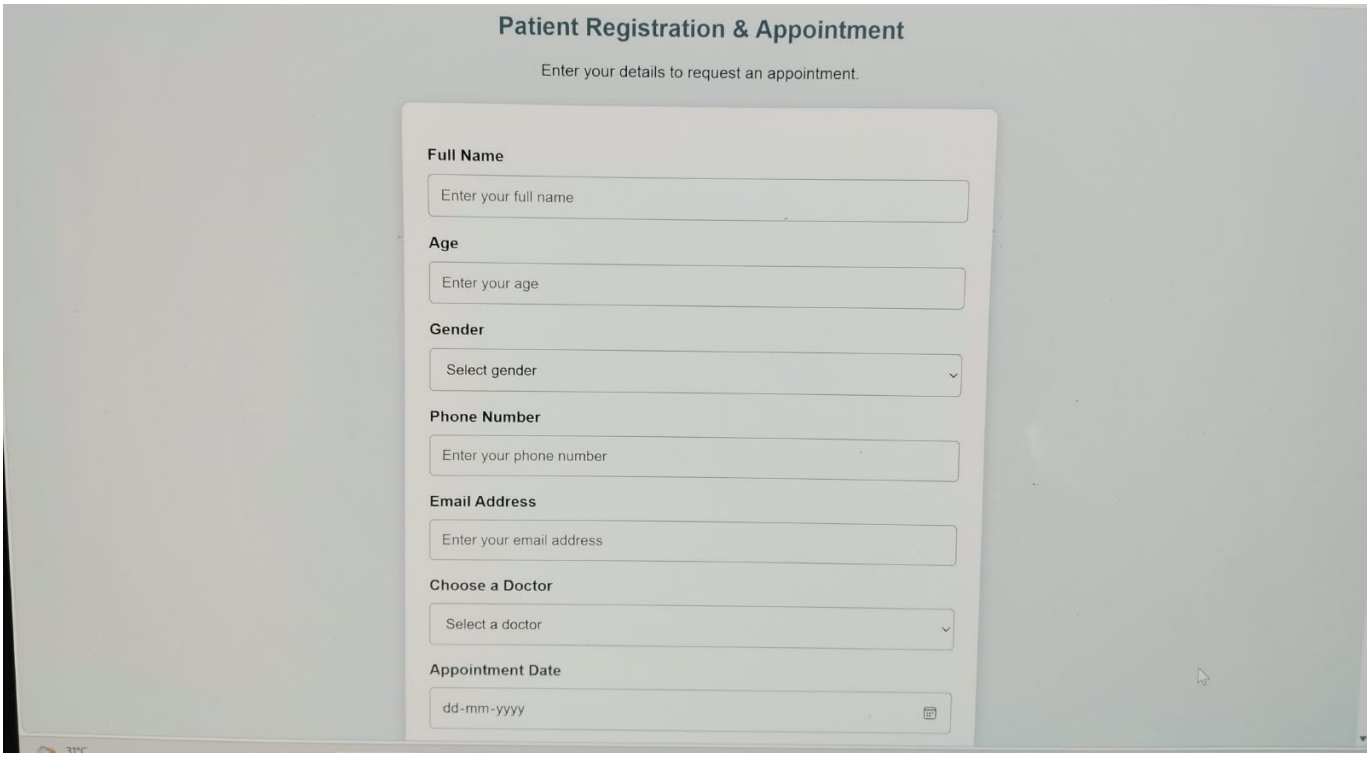

Figure 4: Patient registration and appointment form

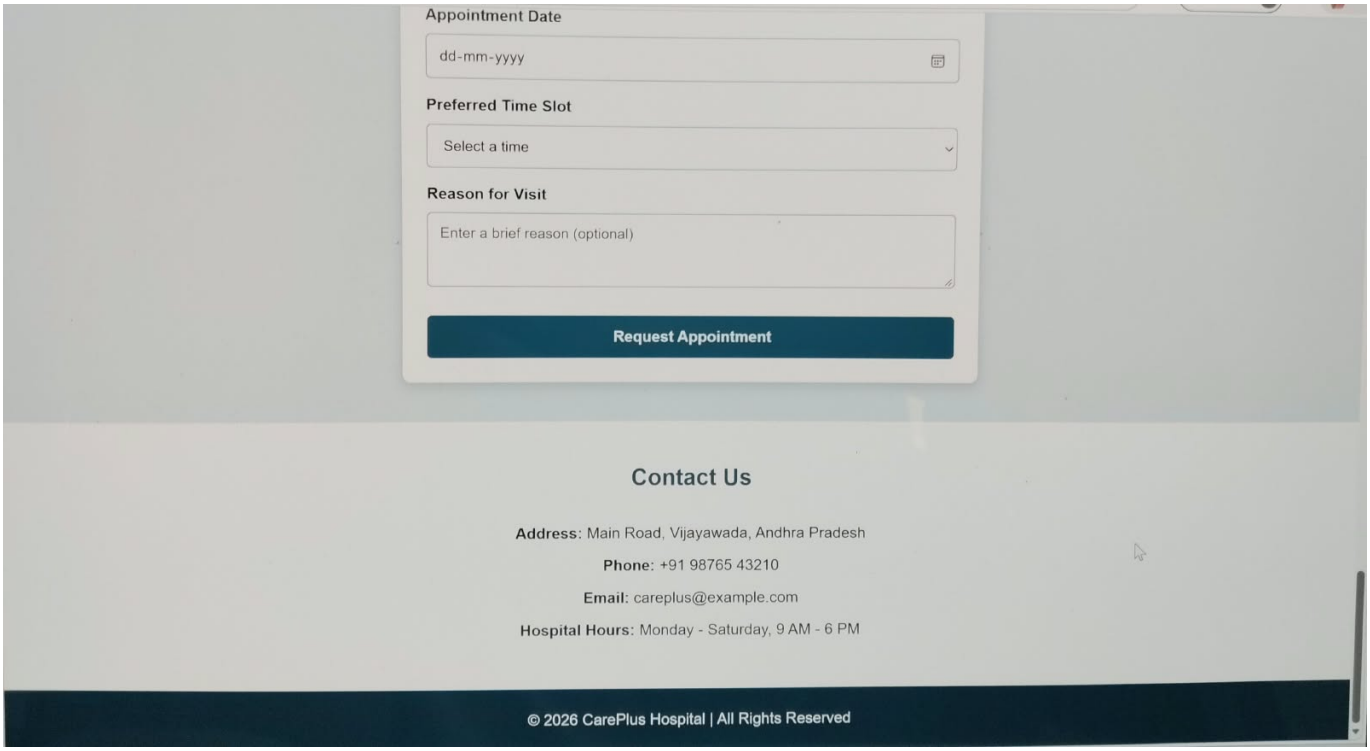

Figure 5: Appointment request and hospital contact details

RESULT

The CarePlus Hospital website was designed with sections for the hospital introduction, doctor profiles, consultation schedules, appointment availability, patient registration, and contact information. The website organizes the information clearly and provides a form through which visitors can request an appointment.
